More ways to fit your space

IS60

Compact dispenser for fruit tea and dairy recipes.

ID 750

Countertop dispenser for fruit tea and dairy recipes.

I-Air

Streamlined syrup and milk dispensing configuration.

Beverage possibilities in real settings

Mall bakery outlet

Equipment positioned within the beverage counter.

Food-court installation

Compact equipment integrated beside an operating stall.

Protect your ingredients and your margins

15–20%

Waste and rework can account for this share of total beverage costs.

Make more of every ingredient. Recipe control helps reduce over-pouring and remakes, while practical routines help teams prepare drinks more consistently.

Waste and rework estimate: AiTEA Company Profile 2026. Actual costs vary by operation. Review your own baseline during a trial.

Great drinks begin with the right ingredients

A beverage range with room to grow

Explore tea bases, coffee, fruit flavours and dairy or plant-based options around your menu.

Recipes that work for your team

We develop recipes internally and with suppliers, balancing taste, ingredient yield and practical preparation.

Supply support for your outlets

Bring ingredient planning, consumables and operating accessories into your beverage programme.

Product brands shown are illustrative. Ingredient compatibility, availability, ordering and delivery arrangements follow the agreed scope.

Confidence from launch to daily service

A confident outlet team

Equipment familiarisation, recipe preparation and hands-on operating guidance.

Clear cleaning routines

Automated cleaning supports the required staff cleaning protocol and scheduled deep cleaning.

Dependable ongoing support

Maintenance, escalation and warranty coverage follow the agreed equipment and service scope.

Make your drinks the main attraction.

Menus that invite an order

Digital and print-ready artwork for counters and TV screens.

Launches customers notice

Posters, standees and banners that put your new drinks in view.

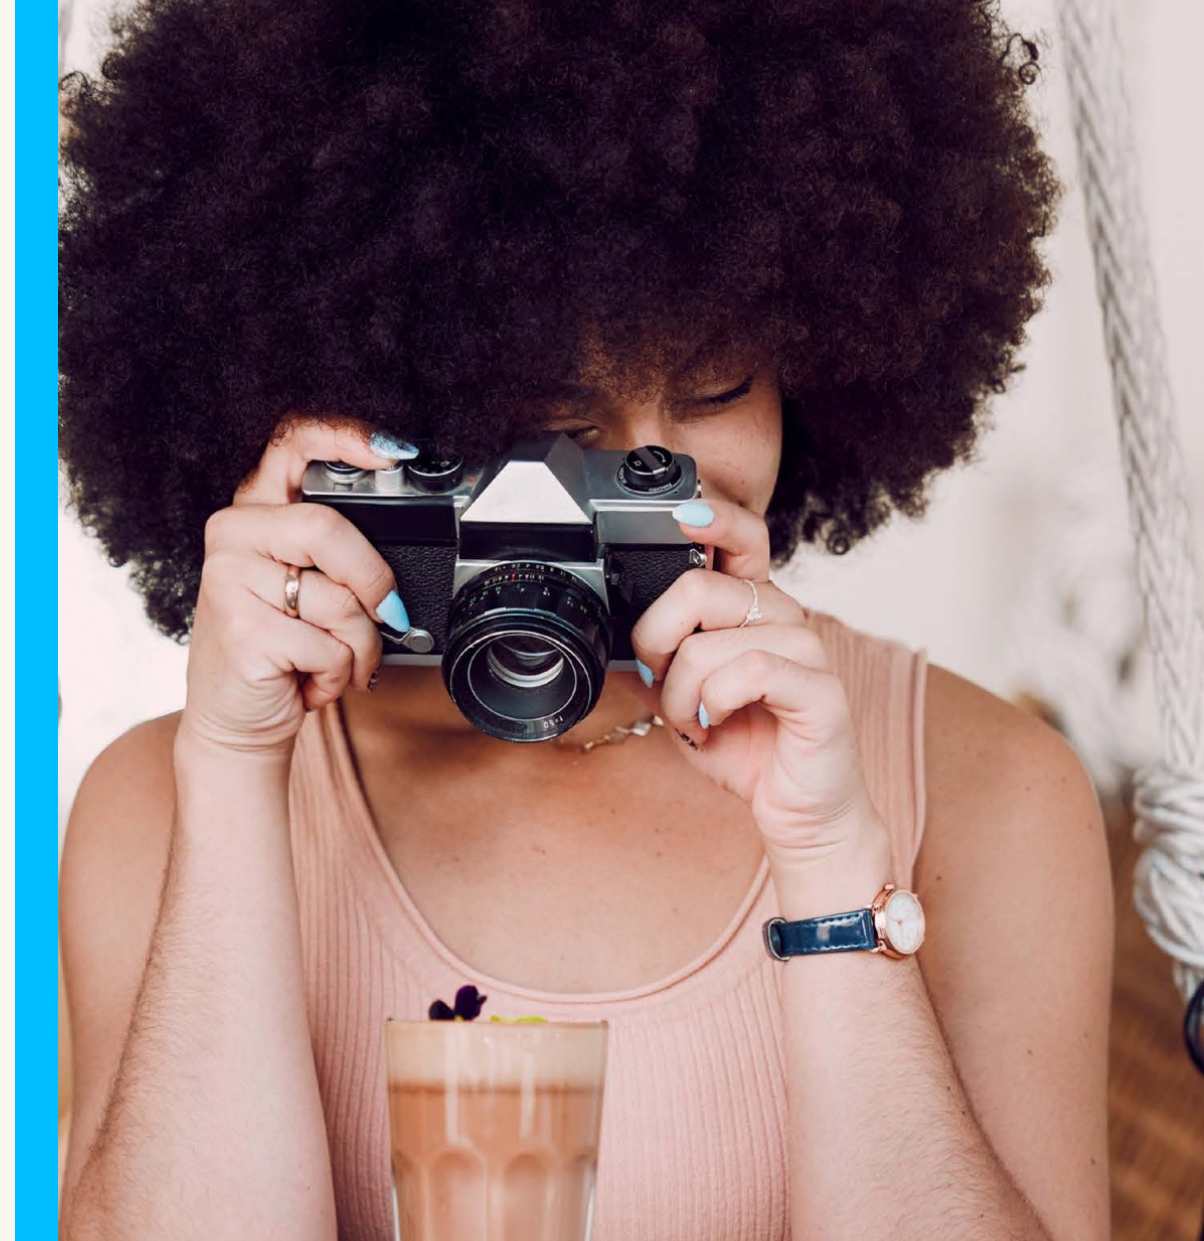

Fresh reasons to return

Seasonal promotions and new drink launches to refresh your offer.

Your brand, every detail

Explore branded packaging and coordinated merchandising.

Marketing materials, artwork updates, customisation and production costs follow the agreed package.

A programme that fits your business

Equipment purchase

Invest in your own beverage equipment with deployment and support tailored to your operation.

Rental / BaaS

Explore a rental programme that brings equipment and agreed services together for your outlets.

Connected tools for a growing beverage menu

Manage recipes and review beverage performance with connected capabilities. Explore a customised cloud dashboard for operational visibility, or Enterprise API connectivity to your POS and other systems.

SaaS fees are separate from equipment purchases. Silent calibration carries an applicable SaaS fee. Your quotation confirms inclusions and ongoing charges.

Your next great drink starts here

Taste the drinks. See the machine.

Discover the drinks and equipment that fit your business. Meet our team for a tasting or live demo, then explore a beverage programme tailored to your outlets.
